

# J-Station 2.0 Addendum

## J-Station 2.0

Welcome to J-Station 2.0 software. There have been a few changes implemented from subsequent releases, most notably the addition of new amp models and speaker cabinets. Version 2.0 has increased the number of total amp models to 24, including new models for both new Guitar and Bass, and added 7 new cabinet types.

With the release of version 2.0 for the J-Station is also a new release of the J-Edit™ Editor/Librarian. It is necessary to install the new version of J-Edit™ in order to edit and save presets using your computer. You must first uninstall
